# Gudani, Balutan won't appear before Citizen's Congress

By Ben Z. Parthasar

SENATOR GUDANI and BALUTAN will not appear before the Citizen's Congress, the Senate President, Juan Ponce Enrile, has declared.

Enrile, speaking from the Senate Chamber, said that the two senators will not appear before the Citizen's Congress because they are not yet ready to face the public. He said that the two senators will appear before the Citizen's Congress when they are ready to face the public.

The two senators will appear before the Citizen's Congress when they are ready to face the public. Enrile said that the two senators will appear before the Citizen's Congress when they are ready to face the public.

# Samar not a logging area, but an ecological sanctuary

By [illegible]

THE SAMAR PROVINCE is not a logging area, but an ecological sanctuary. The province is home to a rich biodiversity of flora and fauna, including the Samar mangrove forest, which is a UNESCO World Heritage Site. The province is also home to the Samar rain forest, which is a natural habitat for many rare and endangered species. The province is a treasure trove of natural resources, and it is our duty to protect and preserve them for future generations.

DEBI 8 151510

1. *Chlorophyll a* and *b* contents were determined using a spectrophotometer (Shimadzu UV-160U) at 663 nm and 646 nm, respectively. The total chlorophyll content was calculated using the following formula:  $\text{Total Chlorophyll} = \frac{12.7 \times \text{Abs}_{663} + 22.9 \times \text{Abs}_{646}}{1000}$ . The carotenoid content was determined using a spectrophotometer at 440 nm. The total carotenoid content was calculated using the following formula:  $\text{Total Carotenoid} = \frac{\text{Abs}_{440} - 1.82 \times \text{Abs}_{663}}{220}$ . The protein content was determined using a protein assay kit (Bio-Rad) and a spectrophotometer at 595 nm.

## NLEx operator won't reduce toll for truckers

Figure 1 displays a sequence of 16 grayscale images arranged in a 4x4 grid, illustrating the degradation of a handwritten digit '4' under increasing salt and pepper noise levels. The images are labeled 1 through 16. The top row (images 1-8) shows the digit becoming increasingly obscured by noise, with labels 1 through 8 below each image. The bottom row (images 9-16) shows the digit becoming increasingly blurred and distorted, with labels 9 through 16 below each image.

## Professor ushers hope for film industry

By John A. Smith

Published: 11/10/90

WASH. (AP) — A professor of film studies at the University of California, Los Angeles, has announced that he will be producing a new film, "The Last of the Mohicans," which is expected to be released in 1991.

Los Angeles

The professor, who is also a well-known film critic, has been working on the project for several years. He has already secured the rights to the story and has begun casting the main roles. The film is expected to be a major production, with a budget of several million dollars.

The professor has a long history in the film industry, having worked on numerous projects as a producer, director, and writer. He is known for his innovative approach to filmmaking and his commitment to telling compelling stories.

The film "The Last of the Mohicans" is based on the novel by James Fenimore Cooper. It tells the story of a group of Mohican warriors who help a group of British soldiers fight off a group of French soldiers in the 18th century.

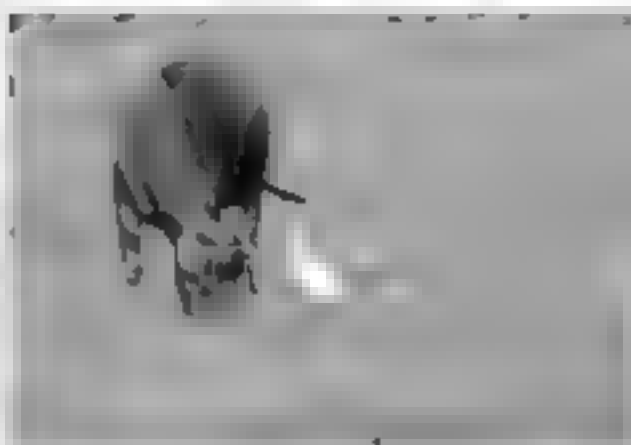

The professor has said that he is excited about the project and that he believes it will be a major success. He has also said that he is looking for a distributor for the film and that he is open to offers from any company.

The professor's new film is expected to be a major production, with a budget of several million dollars. It is expected to be released in 1991.

# Bicol forests disappearing, says DENR exec

**MANILA**—The DENR has announced that Bicol's forests are disappearing at an alarming rate, with an estimated 10,000 hectares lost annually. The department's executive director, Gen. Romeo B. Lacuna, said that the loss of forests in Bicol is a major concern for the government, as it is a source of timber and a habitat for many species of plants and animals. He said that the DENR is working to protect the remaining forests in Bicol, but that more action is needed to stop the deforestation. ## RP health sector put in doubt by bird flu

By Marissa Reyes

**MANILA**—The health sector in the Philippines is in a state of uncertainty as the country faces the possibility of a bird flu outbreak. The Department of Health (DOH) has been working to prepare for a possible outbreak, but the lack of information about the disease has made it difficult to do so.
